

# Leaders in digital for 30 years

As pioneers of digital innovation, we've been providing specialist software, services and content to a diverse customer base for over three decades, delivering digital insight, knowledge and expertise to the hands of organisations both in the UK and overseas.

We are focused and proactive – we take action when needed to ensure our organisation continues to expand in the right areas, and in line with customer and business needs and expectations.

## Over the last 12 months, we can boast...

*"In the last three months alone, we have secured a succession of fresh partnerships with local authorities, NHS Trusts, universities and commercial organisations who are attracted by the scalability of our solutions and our proven track record. It is with this winning streak that we are confident we will continue on our upward trend as we move further into 2018, supporting a customer base that has always relied and trusted in us to deliver innovation."*
